DETAILED ACTION

Response to Amendment

Claims 1-19 are pending.

The 35 USC 112 second paragraph rejection of claims 2, 10-14 has been withdrawn based on applicant's amendment filed on April 4, 2006.

Response to Arguments

Applicant's arguments, see page 7, filed April 4, 2006, with respect to claims 1 and 2 have been fully considered and are persuasive. The rejection of claims 1 and 2 has been withdrawn.

Applicant's arguments, see pages 7-8, filed April 4, 2006, with respect to claims 1-11, 13, 19 have been fully considered and are persuasive. The rejection of 1-11, 13, 19 has been withdrawn.

Allowable Subject Matter

Claims 1-19 are allowed.

The following is an examiner's statement of reasons for allowance:

After reviewing applicant's amendments, arguments and conducting an updated search none of the cited prior arts alone or in combination discloses the claimed apparatus for amplifying two collinearly propagating beams having the structural combination of independent claim 1, in particular propagating the two beams through the gas volume and nonlinearly converting photons from the fluorescence into photons of the propagating beams thereby amplifying the beams.

The closest cited reference to Hodgson discloses two collinearly propagating beams through a gas volume but fails to disclose converting photons from the fluorescence into photons of the propagating beams, as disclosed in column 1 lines 48-64 of Hodgson, the frequency (photon) of the propagating beams are converted to different frequency, as such does not teach, disclose or imply amplifying the propagating beams.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
